PREFACE.

THE INDIA OFFICE LIST, of which the First Edition is now published, contains a brief statement of the services of each member of the India Office Establishment, of the higher grades of the Civil Service of India, and of other Government servants in civil employment in that country.

Owing to considerations of space it has been found necessary in the case of some classes of public servants to include only those who have reached a certain rank in the Service as indicated by their substantive rate of pay.

A Revised Edition of the work will be published annually, and the names of those whose services are recorded will be retained until their retirement from the public service, and in some cases for life. The present issue contains a certain number of retired civilians and others, selected on account of the positions they held on retirement, or for distinctions conferred on them in recognition of their services.

The issue of the present Edition has been delayed from unavoidable causes, chiefly the incomplete records available in many cases. It is intended that subsequent Editions shall be published about the middle of each year, and shall be corrected, as far as possible, up to the end of the preceding year.

The work has been compiled mainly from the separate histories of services published under the direction of the supreme and local governments in India, supplemented, where possible, from private sources.

The Registrar and Superintendent of Records will be glad to receive from those concerned early intimation of errors or omissions in this or future issues. Any communication which will entail alteration in the subsequent Edition should reach the India Office before the 1st June.

GOVERNORS OF BOMBAY.

Names.	Assumed charge of office.	Remarks.
The Hon. Sir Abraham Shipman (*a*)		Appointed 'General and Governor' on the 19th March, 1662, was prevented from landing in Bombay by the Portuguese, and died on the island of Anjediva in October, 1664.
Mr. Humfrey Cooke		Secretary to Sir Abraham Shipman, succeeded him in command, and came to Bombay as governor in February, 1665. He remained in power till the 5th November, 1666.
The Hon Sir Gervase Lucas	5 Nov., 1666	Died 21st May, 1667.
Captain Henry Garey	22 May, 1667	Officiating.
Sir George Oxenden	23 Sept., 1668	Died in Surat on the 14th July, 1669.
Mr Gerald Aungier	14 July, 1669	Died in Surat on the 30th June, 1677.
Mr. Thomas Rolt	0 June, 1677	
Sir John Child, Bart. (*b*)	27 Oct., 168.	

(*a*.) The first four governors held Bombay for the Crown. The Island was handed over to the Company on the 23rd Sept , 1668. For the next nineteen years (1668–1687), except for occasional visits, and during three years (1672–1675) of Governor Aungier's rule, the Governors of Bombay spent almost the whole of their time in Surat, of whose factory they were presidents. During this time Bombay was administered by an officer styled Deputy Governor The transfer, in 1687, of the headquarters of the Company's power to Bombay to a great extent did away with the need of a Deputy Governor But in spite of the change the title continued for many years to be borne by the second member of the Council It would seem to have fallen into disuse some time between 1720 and 1738
(*b*.) Child was Governor and General with his headquarters in Bombay, whither he moved from Surat on the 2nd May, 1687, and where he died on the 4th Feb , 1690 In the year 1683 Bombay was the scene of a revolt against the Company's authority. The head of the rebellion was Captain Richard Keigwin, the third member of the Council Placing the Deputy Governor under arrest, Keigwin ruled Bombay in the King's name from the 27th Dec., 1683, to the 19th Nov., 1684, when on promise of pardon he handed over the Island to Admiral Sir Thomas Grantham.

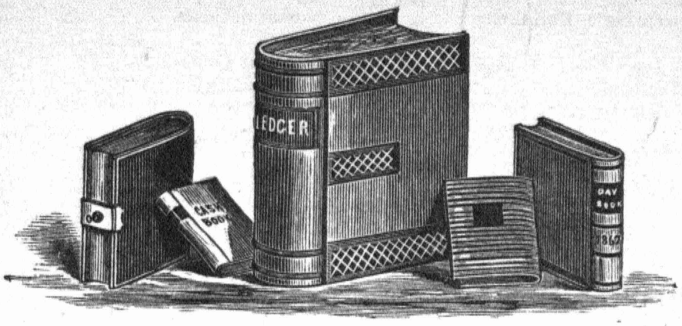
ACCOUNT BOOK MANUFACTURERS.



ACCOUNT BOOKS,

Made of the best description of Paper, well Ruled and Printed, and the

MATERIALS USED FOR BINDING ARE OF SUPERIOR QUALITY

ESPECIALLY THE RUSSIA, CALF, & VELLUM.

All best Books are made with patent flexible backs, and warranted to open perfectly flat, without danger of the joints or sections giving way.

GENERAL DIRECTIONS FOR ORDERING ACCOUNT BOOKS.

The Size of Paper may be given in inches.

Description of Paper—Blue Laid Hand-made is always used, unless instructions are given to the contrary.

Thickness of Book—The number of Pages should be given; two pages constitute a leaf or folio, and two leaves or folios or four pages form a sheet.

Pattern for Ruling—Patterns of ordinary Rulings are on next page; if any other be required, a whole sheet should be sent.

Description of Binding—Russia, Calf, Vellum, with single or double Russia Bands, Basil, Forril, half Russia, half Calf, half Vellum, half Basil, with cloth or paper sides.

Lettering—If on Back or Side, or both.

Indexes—Ruled blue lines, unless a pattern for the Ruling be sent, are bound up with the Book, if not ordered in a separate binding. The number of leaves to each letter should be stated.

Paging or Folioing—Care should be taken to state distinctly whether the Book is to be paged or folioed; if paged, the numbers run consecutively, thus: 1) (2; if folioed, both pages in the opening have the same number, thus: 1) (1.

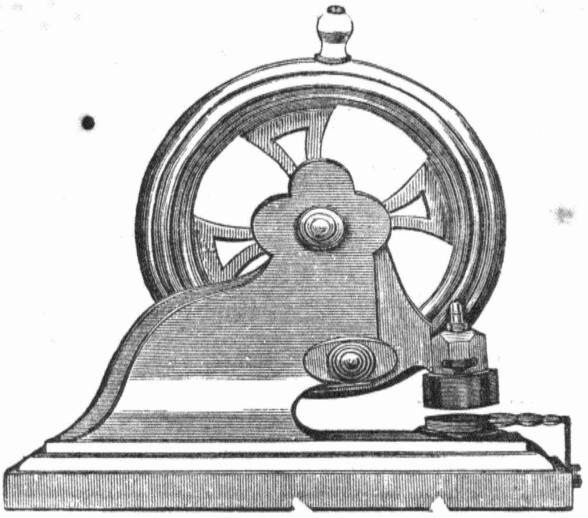
PATENT DUPLEX PRESS.

SIMPLICITY, DURABILITY, CHEAPNESS, POWER.



For Stamping Notarial, Official, Corporate, and other Seals, &c.

MESSRS. HARRISON & SONS, Wholesale Stationers, Parliamentary Printers, &c., beg to call attention to the Patent Duplex Press, for Stamping Notarial, Official, Corporate, and other Seals, &c., which for portability, durability, power, and simplicity of construction, and consequent cheapness, is unrivalled.

So little force is needed to work the Patent Duplex Press that it requires no fixing, and a stand is not necessary ; it may be placed on an ordinary table or desk.

It is constructed without screw or springs, the power being produced by a cam acting on a bell crank lever. From the extreme simplicity of its mechanism, it can be supplied at one-half the price of an ordinary screw press.

The Patent Duplex Press can be fitted with a lock, so as to prevent its being used by an unauthorized person.

These Presses for durability and simpleness have achieved a certain reputation. The action is simple, and the result all that can be desired. One of the advantages is that an unlimited number of stamps can be fitted to one Press, and as many coloured inks as required by having separate pads, which can be changed instantly. They surpass all others in cleanliness. They are also used for marking Linen.

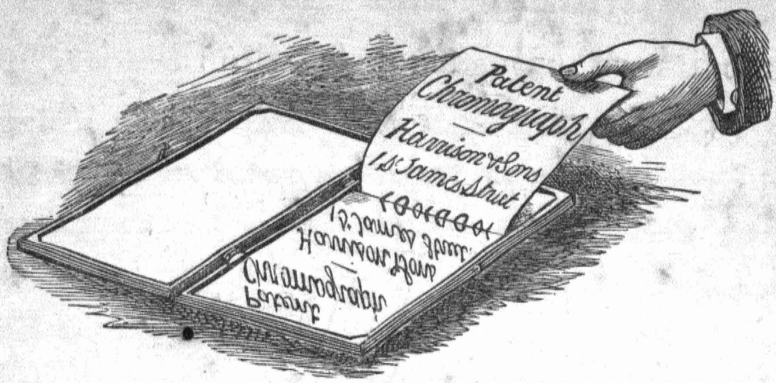
THE CHROMOGRAPH.



THE CHROMOGRAPH is an ingenious invention which enables any one to produce a number of copies from MSS. written with a special ink supplied with the Apparatus, and is, therefore, invaluable to those who are often requiring reproductions of their letters, invitations. despatches, circulars, plans, or drawings, fifty fac-similes of which can be produced in a few moments, without any knowledge of Printing or Lithography being required. The Apparatus consists of two flat metal boxes lined with a gelatinous composition, which answers the same purpose as the stone in Lithographic Printing, and these cases are separable and close together in the shape of a book.

The MS. to be copied is written on any kind of paper, and with any pen (either steel or quill), with the ink supplied, and the writing or drawing, *being perfectly dry*, is placed face downwards on the composition and the hand passed lightly over it two or three times, the paper is then pulled gently off (in the same manner as shown in the illustration above), and a fac-simile counterpart of the writing or drawing will be found transferred to the composition. A sheet of paper of any kind is then laid upon the composition and smoothed down lightly with the hand, and after two or three seconds is withdrawn in the same manner as before mentioned, and a clear and perfect copy of the original will be found printed upon it. This operation is repeated as often as required, from eight to ten minutes only being required to produce forty to fifty copies.

Immediately the requisite number of copies are printed, fill the sponge supplied with the Apparatus with clean cold water, and rub the surface gently, and the writing will be speedily effaced, as easily, in fact, as pencil writing from the surface of a porcelain slate.

If the composition is at any time accidentally scratched or broken, it can be remelted by heating it and allowing it to cool, care being taken to prevent dust from settling on it when in a liquid state.

This Apparatus has been supplied and found most useful to Merchants, Secretaries, and most of H. M.'s Ambassadors, Consuls, and Agents abroad.

WORKS BY SIR BERNARD BURKE, C.B., LL.D., ULSTER KING OF ARMS.

*** "The list of his works, remembering their nature, and the size, intricacy, and almost endless ramifications of some of them, present an example of rare industry, system, mental energy, and capacity."—*Dublin University Magazine.*

Sir Bernard Burke's Peerage, Baronetage, Knightage, &c., for 1886. 48th Edition.

This Peerage and Baronetage is the only one extant which combines, in one volume the full genealogical or past, as well as the present, account of all the Peers and Baronets of the realm. The Baronetage, incorporated with the Peerage, is complete in every detail as to the Lineage and present condition of each Baronet and his family. The Knightage has been much enlarged by the introduction of the family connections of the Knights of the several Orders of the Knights Bachelors and of the Members of Her Majesty's Most Honourable Privy Council. *Precedence.*—This important subject has been fully dealt with, and the Lists may be relied on as authoritative. The Peers, Baronets, and Knights, and the Companions of the several Orders of Knighthood are placed according to their relative rank; and there is given a Scale of General or Social Precedence, and a List of the Maids of Honour to the Queen, with their relative Precedence. Tables of Precedence of Diplomatic Agents; Relative Rank of the Officers of the Navy

and Army; and Precedence in the Colonies, the Dominion of Canada, and the Indian Empire are also supplied. There will also be found official Lists of THE ORDER OF THE INDIAN EMPIRE, THE ROYAL ORDER OF VICTORIA AND ALBERT, THE IMPERIAL ORDER OF THE CROWN OF INDIA, THE VICTORIA CROSS, THE ALBERT MEDAL, and THE ROYAL RED CROSS. The heraldic department includes not only the engravings of the arms of both PEERS and BARONETS, but also the written blazon or descriptions. To this work is added a Key, or Comprehensive Alphabetical List, by means of which every titled personage, and many others, can be easily traced. Nearly 2,000 pages, super royal 8vo., cloth gilt. Price £1 18s.

"While most other publications of the kind form most useful indexes to the living members of the Aristocracy, Sir Bernard Burke's handsome volume is perhaps the most useful and valuable companion to the student of English History."—*Times.*

"The foremost place among works of reference is claimed, almost by traditional right, by Sir Bernard Burke's 'Dictionary of the Peerage and Baronetage,' which still remains the Standard Authority as to Aristocratic Lineage."—*Whitehall Review.*

"Constant reference to the pages of 'Burke' enables us to testify to its invariable accuracy. . . . . For completeness and comprehensiveness on all matters connected with Titles of honour it is unsurpassed."—*Court Journal.*

"An indispensable companion to all classes."—*Illustrated London News.*

Sir Bernard Burke's Landed Gentry

of Great Britain and Ireland, being a record of the Lineage, &c., of about 4,500 Families, with a description of their Arms, Crests, &c. SEVENTH EDITION. Thoroughly Revised throughout, 1886. This edition of the Landed Gentry has been compiled from communications made by the chiefs and heads of families from their private papers, traditions and genealogies. The great aim has been to arrive at accuracy, and, in order to attain this end, every available source of information has been exhausted, and a correspondence carried on which has secured many thousands of communications from those most competent to improve and correct the work. Apocryphal statements, which had crept into former editions, have been expunged, erroneous particulars and incorrect descents discovered and omitted, and some memoirs excluded as being no longer associated with the possession of landed property. In two volumes, uniform with "The Peerage," "General Armory," &c. 2,088 pages, super royal 8vo., cloth gilt. Price £3 3s.

A work of this kind is of a national value. Its utility is not merely temporary, but it will exist and be acknowledged as long as the families, whose names and genealogies are recorded in it, continue to form an integral portion of the English constitution."—*Post.*

Sir Bernard Burke's General Armory

of England, Scotland, Ireland, and Wales. Comprising a registry of Armorial Bearings from the earliest to the present time. RE-ISSUE 1884, WITH ADDITIONAL SUPPLEMENT describing THE ARMS, &C., OF NEARLY ONE THOUSAND FAMILIES NOT INCLUDED IN THE PREVIOUS ISSUE. This work contains above 66,000 Blazons of the Arms of Families, Companies, Cities, &c., with mottoes arranged in alphabetical order. This Work having engaged the personal attention of the Editor for a considerable period of time, will be found most valuable not only to the Student of Heraldry and those personally interested in its pages, but to all who

are brought into connection with the subject by their professions—such as Engravers, Silversmiths, Coach Builders, Die Sinkers, &c. Uniform with "The Peerage," "The Landed Gentry," &c. 1,280 pages, super royal 8vo., cloth gilt. Price £2 12s. 6d.

"The work may indisputably claim to be one great authority on all things heraldic."—*Illustrated News.*

"Its authority is unquestionable over the whole range of facts with which it deals; it is the most comprehensive collection ever presented to the world."—*Saunders' Irish Daily News.*

Sir Bernard Burke's Dormant, Abeyant,

FORFEITED, AND EXTINCT PEERAGES of the British Empire. NEW EDITION, BROUGHT DOWN TO 1883. Comprising every Peerage created since the Conquest, that is now Extinct, Dormant, under Attainder, or in Abeyance, and tracing down the various dignities to their existing representatives. Illustrated by Steel Engravings of the Principal Arms. Royal 8vo., cloth gilt. Price £2 2s.

"By the publication of this splendid volume, Ulster King of Arms completes the structure of information which he has been so long engaged in rearing, and in whose construction he has displayed not only the accuracy and research of the herald, but the generalization, the appreciation of the historian."—*Morning Post.*

Banting. A Letter on Corpulence, addressed to the Public. 4th Edition, reprinted 1885. 8vo., sewn. Price 1s.

Beaconsfield, An Appreciative Life of

THE LATE EARL OF. A Statesman of "Light and Leading," with Portraits of his Contemporaries. Edited by CORNELIUS BROWN, F.R.S.L., &c. This work is copiously illustrated with Etchings, Engravings, and with 25 *Permanent Photographs* of Eminent Conservatives, including the whole of the late Beaconsfield Ministry. To say nothing of the value and interest of these elegant volumes, in their costly illustrations, and the superior style in which they are presented for Publication, as containing An Appreciative Life of one of the most distinguished public men of whom our country can boast in the present eventful century of its annals, they will be found, it is believed, to have an attractiveness for the British Public generally, and for British Conservatives in particular, such as perhaps no similar Biography of modern times can be said to possess.

LETTER FROM SIR STAFFORD H. NORTHCOTE.—"30, St. James's Place, S.W., August 17, 1881. —DEAR SIR,—I have read the First Part of your Life of Lord Beaconsfield with much interest, and think that it promises extremely well. If, in the course of your work, you wish for any information which I can give you, pray do not scruple to ask for it.—Faithfully yours,

"CORNELIUS BROWN, ESQ." "STAFFORD H. NORTHCOTE.

SECOND SERIES. Demy 4to., cloth gilt. Price 21s.

"The Author compresses his adventures into a very small space, and seems to have undergone all sorts of fatigue and exposure, in company with his wife, in a country not usually accessible to ladies; and he gives good advice as to the best means of curing and preserving skins and heads."—*Saturday Review.*

*** "This work will prove highly acceptable to sportsmen, for the Author not only explains where the game is to be found, the mode of travel, and the best seasons to hunt, but gives some well-executed photos of the large game. . . . . As a sportsman and a word-painter he is inimitable, and his work should be largely patronized."—*European Mail.*

*** "This is an attractive volume . . . . Captain Kinloch writes on all these subjects in a genuine and straightforward style, aiming at giving a complete description of the habits and movements of the game . . . . The full-page illustrations in this book are fine photographs taken from life, and add much to the value of this valuable work."—*British Mail.*
